DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see remarks, filed 7/14/05, with respect to the rejection(s) the claim(s) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of 35 USC 112.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-14 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In claims 1 and 8, claim 1 lines 5-7, "an informativity determining circuit that determines the informativity of the constituents of the at least one phrase based on how much the part of speech of a first constituent modifies the part of speech of a second constituent;" and in claim 8, lines 6, 7 "determining the informativity of the constituents of the at least one phrase based on how much the part of speech of a first constituent modifies the part of speech of a second constituent;" is not taught in the specification. The Examiner notes in the cited section by the

applicant, p. 6 lines 13-30, more specifically, in lines 13- "The informativity determining circuit 85 is activated to determine the informativity of each part of speech of each sentence.", ... "The additional adjectives are determined by the informativity determining circuit 85 as modifying a modifier." The Examiner is unable to locate anywhere in the disclosure where the applicant teaches, the informativity determining circuit determining an informativity based on *how much* the part of speech of a first constituent modifies the part of speech of a second constituent.

4. Claims 2-7, and 9-14 are dependent upon their rejected parent claims and are thus rejected.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 2654

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
